Not illustrated. 1921 Excerpt: .answers and problems you are required to have for a Marine license. \$3.00. Agents wanted at all ports. Liberal commission. Write to Ocean Publishing Co. quired to maintain a tenacious piston seal and provide ample lubrication of the parts. Practice has proven that one or two drops of this oil per minute is entirely sufficient in the cylinders of marine air compressor. The mechanical force-feed lubricator is the ideal method of applying oil to the cylinders of fair compressors. The oil should flow directly through the cylinder wall by means of two leads, opposite each other, to the piston, between the first and second piston rings, when the piston is at the bottom of its stroke (referring to a vertical compressor). On the up stroke the oil is spread over the surface, forms the piston seal, and lubricates the moving parts. In three-stage compressors, it has...

Reviews

Merely no words to explain. I really could comprehend everything out of this published e ebook. I found out this publication from my dad and i suggested this publication to learn.

-- Prof. Margarita Ledner PhD

This written pdf is fantastic. It normally is not going to expense a lot of. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- Gilbert Stroman
