Createspace, United States, 2014. Paperback. Book Condition: New. 216 x 140 mm. Language: English . Brand New Book ***** Print on Demand *****.In the following writings you will find repetition about the basic issues of Greed, Hatred and Fear versus Freedom, Love and Truth. While these and similar issues are dealt with in a variety of ways I can t help but feel that what s being said isn t being said enough. There are two ideas worth special attention. One is an elaboration of an old idea simplified. Instead of believing that people have a Right to Pursue Happiness I believe that people have a Right to Experience Happiness. It does no good to pursue Happiness if we are unable to attain it. While simple this is a powerful idea. It provides the guiding ideology of the Magic Web. The other noteworthy concept concerns thoughts about the ultimate purpose of Mankind. This deals with a personal interpretation of the meaning and ramifications of a scientific term known as Maximum Entropy. I agree that the material universe will be completely disintegrated. i merely interpret this to be the beginning of an Eternal Spiritual Realm, the objective of the Human Soul. While many tones run through this work it is considered to be a search for truth, that which will set us free and lead to happiness. It is my desire that these writings be used as tools for both personal and social enlightenment.
